Érico A. B. Cavalcanti

Mid-level Backend Developer at @Petz

Vistit my portifolio at: https://erico-portifolio.vercel.app/

Work Experience

Petz

dec 2023 - Presente

Mid-level Backend Developer

I orchestrated the maintenance and enhancement of essential microservices, covering clients, pets, and authentication. Leading a challenging ETL, I carried out the effective migration of 18 million records to a microservices architecture, improving the system's performance and scalability.

apr 2023 - nov 2023

Sysops Backend Developer

I ensured the flawless operation of the e-commerce, monitoring and adjusting systems alongside the dev teams in real time. I also implemented timely improvements in the company's key microservices.

Doutor-IE

feb 2021 - aug 2022

Junior Developer

nov 2019 - jan 2021

Trainee
